

BEAVER ISLAND DISTRICT LIBRARY

MISSION STATEMENT

The goals of the Beaver Island District Library are to provide access to printed and other materials and resources; to give guidance in their use; to address cultural, informational, educational, recreational, and technological needs of the entire community; and to encourage an enjoyment of reading. We are committed to maintaining an open-minded attitude toward new methods and improvements in library service and to periodically reviewing the goals of the Beaver Island District Library. The Library will strive to meet the standards set by the Library of Michigan and the American Library Association for all of its material and services.
